KATA PENGANTAR ..................................................................................................... ix
DAFTAR ISI .................................................................................................................. xi
DAFTAR GAMBAR ........................................................................................................ xv
DAFTAR TABEL ........................................................................................................... xviii
LAMPIRAN ................................................................................................................... xix

BAB I PENDAHULUAN ................................................................................................. 1
  1.1 Latar Belakang ...................................................................................................... 1
  1.2 Rumusan Masalah ............................................................................................... 4
  1.3 Batasan Masalah .................................................................................................. 4
  1.4 Tujuan Penelitian ........................................................................................------- 4
  1.5 Manfaat ................................................................................................................ 5
    1.5.1 Manfaat Teoritis ............................................................................................ 5
    1.5.2 Manfaat Praktis ............................................................................................ 5

BAB II TINJAUAN PUSTAKA ......................................................................................... 6
  2.1 Pengertian dan Kategori dalam Fotografi .......................................................... 6
  2.2 Pengertian Bahasa Isyarat .................................................................................. 22
  2.3 Buku Referensi ................................................................................................... 24
  2.4 Media .................................................................................................................. 25
  2.5 Tipografi ............................................................................................................. 26
  2.6 Teori Warna ........................................................................................................ 27
  2.7 Pengertian Media Pembelajaran ......................................................................... 29
  2.8 Teori Perkembangan Anak Usia Dini ................................................................. 30
  2.9 Definisi Anak Tunarungu dan Tunawicara ......................................................... 31
BAB III METODOLOGI PENELITIAN

3.1 Perancangan Penelitian

3.1.1 Jenis Penelitian

3.1.2 Jenis Penelitian

3.2 Teknik Pengumpulan Data

3.2.1 Jenis Penelitian

3.2.2 Wawancara (Interview)

3.2.3 Studi Literatur

3.2.4 Dokumentasi

3.2.5 FGD (Focus Group Discussion)

3.3 Teknik Analisis Data

3.3.1 Reduksi Data

3.3.2 Penyajian Data

3.3.3 Kesimpulan

BAB IV PEMBAHASAN

4.1 Hasil dan Analisis Data

4.1.1 Hasil Observasi (Pengamatan)

4.1.2 Wawancara (Interview)

4.1.3 Dokumentasi
4.7.13 Desain Media Pendukung .................................................................90

BAB V PENUTUP ..........................................................................................92

5.1 Kesimpulan ...............................................................................................92

5.2 Saran ...........................................................................................................93
